LCL EXPORT/IMPORT BULLETIN

Dear Valued Customer,

The USA Midwest, and especially Chicago, has been experiencing unprecedented challenges concerning rail congestion, delays, and drayage capacity. Increased demand, asset shortages, driver constraints and severe weather conditions have quickly driven up our costs. There are no quick or easy solutions to these challenges, and as a result we have taken on higher costs as a means to continue to service your cargo and to meet the high level of service that we expect to provide.

With these considerations, we are implementing a Congestion Surcharge as outlined below.
